

Targeted QA Validation

Validation date: 3 September 2026

PASS — Targeted validation complete

Summary

The registration and email-verification updates have passed targeted quality validation.

Validated journeys

- ✓ Account registration and field validation
- ✓ Mobile-number validation for supported regions
- ✓ Email verification-code creation and confirmation
- ✓ Account sign-in after registration
- ✓ Assessment selection and eligible checkout continuation
- ✓ Age-eligibility checks

Result

The tested registration and email-verification journeys completed successfully.

This report covers the targeted registration and email-verification changes. It is not a full product release certification.
