

Confirmation of Scope - DCMB

Proposed User Journey

- User Registration
- Plan Selection
- Payment through Stripe
- Payment Success Confirmation
- User Login
- Access to the existing DecodeMyBrain application
- Completion of the existing assessment workflow

Login & User Access

Users will authenticate through a new login interface.

Authentication will be integrated with the existing Laravel application.

Upon successful login, users will be redirected to the current user dashboard and continue using the existing assessment features.

A "Contact Us" link will be included in the footer of the login page, directing users to the relevant support/contact information.

Administration Portal

The admin dashboard will provide the ability to:

- View registered users
- Monitor user status
- View payment history and transaction status
- Track assessment completion and status
- Add, edit, enable, and disable plans

Assumptions

- The existing Laravel application and user dashboard will remain unchanged.
- The existing assessment workflow and features will remain unchanged.
- Stripe will be used as the payment gateway.
- The current WordPress layer will be completely removed, and the new functionality will be implemented directly within the Laravel platform.

Could you please review the above and confirm whether this accurately reflects your expectations? Once confirmed, we will proceed with the detailed effort, timeline, and cost estimation.

Thank you, and I look forward to your feedback.
